## ETHNIC SURVIVAL, NATIONALISM AND FORCED MIGRATION

### *Corrigendum*

A proofreading error has caused an incongruence in the data presented in column ε' of Table VII (Appendix B) in our article<sup>1</sup> on the historical demography of the Greek community of Asia Minor at the close of the Ottoman era in volume V of the *Deltio* (p. 44). The table presented basic statistics on the Greek schools of the Krini diocese in the Çeşme peninsula of Western Asia Minor across the channel from the Greek island of Chios. We reproduce therefore the table in its entirety, with the correct figures in column ε'.
