**Table S1.** Items from Section I and the specific essential principle that is addressed by each item. The letters next to the essential principles represent the specific fundamental concepts of Ocean Literacy.

Items	Essential Principles & Fundamental Concepts
The ocean affects your life because it	6 a *
Approximately how much of the earth is covered by ocean?	1 a
The ocean dynamics (the motion of water within the ocean) is powered by	1 c *
The ocean is large and finite. Its resources are	1 h
What is causing sea level rise?	1 d *
The ocean helps to _____ global warming by absorbing human-produced CO <sub>2</sub> from the atmosphere	2 d / 3 e, f *
Which of the following are transported by rivers to the ocean?	1 g *
Beaches and coastlines are particularly vulnerable to pollution caused by	6 d
What produces most of the earth’s oxygen?	4 a/3 e *
There are several economic activities collectively taking place in the ocean (e.g., fisheries, shipping, offshore energy, etc). Effective management of the maritime space across borders and sectors should lead to	6 g
Look at the image. If both cities are at the same elevation, it is likely that:	3 b *
In the ocean, living spaces and habitats are found	5 e *
Which of the following options provide habitat for one-third of all marine species?	5 e
The ocean is the last and largest unexplored place on earth. How much of the ocean remains unexplored?	7 a
How is the climate change impacting the Arctic?	6 e *
Oil spills affect the marine environment by	6 d
Most of the antifouling paints that are used to keep ship hulls and floating structures free of marine organisms are	6 d *
Marine renewable energy industries (e.g., offshore wind, tidal and wave energy) may affect the ocean in a variety of ways, such as	6 d *
What are the most frequent effects derived from the concentration of industrial activities near the seashore?	6 d
Most of the marine invasive species are introduced and dispersed to new habitats by	6 d

\*Items retained after validation.

**Table S2.** List of validated questions from The Blue Survey. Items with (\*) represent the correct answers.

**Knowledge about ocean-related topics**

The ocean affects your life because it

- provides food and medicine\*
- provides mineral and energy resources\*
- regulates the temperature\*
- provides recreation and jobs\*

The ocean dynamics (the motion of water within the ocean) is powered by

- tides\*
- winds\*
- earth's rotation\*
- tsunamis

What is causing sea level rise?

- warming of the ocean\*
- ocean acidification
- increasing melting of glaciers and ice sheets\*
- heavy rainfall in the tropics

The ocean helps to \_\_\_\_\_ global warming by absorbing human-produced CO<sub>2</sub> from the atmosphere

- accelerate
- stop
- slow\*
- none of these

Which of the following are transported by rivers to the ocean?

- nutrients\*
- (micro)plastics\*
- sediments\*
- pollutants\*

What produces most of the earth's oxygen?

- forests
- algae in the ocean\*
- both equally
- none of these

Look at the image. If both cities are at the same elevation, it is likely that:

- City A will have warmer summers and cooler winters than city B
- City A will have warmer summers and warmer winters than city B
- City A will have cooler summers and warmer winters than city B\*
- City A will have similar temperatures as city B in each season
- none of these

In the ocean, living spaces and habitats are found

- at the surface\*
- in the water column\*
- on the seafloor\*
- none of these

How is the climate change impacting the Arctic?

- The impact on the Arctic is the same as on the rest on the planet
- The Arctic is warming faster than the rest of the planet\*
- Ice is melting in some parts of the Arctic and growing in other parts
- Tropical fish are migrating to the Arctic
- none of these

Most of the antifouling paints that are used to keep ship hulls and floating structures free of marine organisms are

- harmless
- persistent and accumulative in organisms\*
- toxic\*
- none of these

Marine renewable energy industries (e.g., offshore wind, tidal and wave energy) may affect the ocean in a variety of ways, such as

- visual pollution\*
- collision with seabirds\*
- underwater noise\*
- harmful algal blooms

**Personal interest in ocean-related aspects**

<i>To what extent do the following aspects of the ocean interest you?</i>	not at all	a little bit	neutral	quite a bit	a lot
I am interested in marine energy	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I am interested in ocean science	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I am interested in maritime jobs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I am interested in the recreational aspects	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I am interested in the aesthetic aspects	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

### **Ocean-friendly behaviour**

*Considering a period of one year prior to this survey. How often do you undertake the following actions in your day-to-day life?*

	never	rarely	some-times	often	always
I avoid products with ingredients that are toxic for the marine environment or that are derived from endangered marine organisms	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I reduce my energy consumption at home	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I take short showers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I opt for plastic-free alternatives	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

### **Ocean stewardship**

*To what extent do you agree/disagree with the following statements regarding ocean sustainability? \*Ocean sustainability focuses on managing our ocean and its services without compromising them for future generations*

	strongly disagree	disagree	neutral	agree	strongly agree
I understand the issues facing the global ocean	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
My actions can have a significant effect on the health of oceans and coastal areas	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I have a personal responsibility to work for the health of oceans and coastal areas	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The health of the ocean is important to human survival	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Business and industry should be responsible for ocean sustainability	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Individual citizens should be responsible for ocean sustainability	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Ocean sustainability is more important than economic growth	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

### **Ocean as economic resource**

*To what extent do you agree/disagree with the following statements regarding human utilization of the ocean?*

	strongly disagree	disagree	neutral	agree	strongly agree
It is all right for humans to use the ocean as a resource for economic purposes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
We should no longer use the ocean as a resource for economic purposes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Maritime economic activities are compatible with ocean sustainability	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

### **Willingness to act**

*How often would you be willing to undertake the following responsible actions towards the ocean in your day-to-day life?*

	never	rarely	some-times	often	always
I would be willing to avoid products with ingredients that are toxic for the marine environment or that are derived from endangered marine organisms	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I would be willing to reduce my energy consumption at home	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I would be willing to take short showers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I would be willing to opt for plastic-free alternatives	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

The six sub-dimensions obtained by Exploratory Factor Analyses are in bold. Questions with checkboxes  have more than one correct option, participants were asked to check all that applied. The Blue Survey re-used existing items from validated surveys (Cudaback, 2006; Greely, 2008; Chen *et al.*, 2020).
