Abstract

The school Santa Marta do Pinhal opened in the academic year 2017/2018 with many expectations, but the reality caused some disappointment. The playground was small for so many children, and everything seemed impersonal, lifeless. It was necessary to act and the whole school community got involved. Class assemblies were held within all school groups, where problems were discussed and suggestions were made. This was followed by meetings of delegates, teachers, parents and local authorities, which led to new partnerships. Thanks to the enormous willingness, determination, commitment and resilience of all stakeholders, our school is now very different. The pond enchants kids and grownups, the flowerbeds, the aromatic spiral and the vegetable garden give life to the playground. Many of the classes are now OUTSIDE, wiling to learn and where discoveries are made every moment.

Keywords

Biodiversity; botany; games; schoolyard; zoology.

LÁ FORA...O que fazer no recreio?

LÁ FORA...Vamos promover a biodiversidade!

EB Santa Marta do Pinhal

AE Vale de Milhaços, Corroios, Seixal

Professor(es) – Mª. Fátima Sequeira Soares, 3 educadoras e 12 professoras

3 grupos de educação pré-escolar e 12 turmas de 1º ciclo

Em assembleia de turma, nas 15 turmas da escola, todos os alunos tiveram a oportunidade de apresentar as suas preocupações e sugestões.

Registaram num cartaz tudo o que consideravam importante, o que faltava na escola ou o que gostariam de mudar.

Os alunos focaram-se essencialmente nos problemas da escola e selecionaram dois:

- O que fazer no recreio?
- O nosso recreio parece um deserto.

Lá fora... Vamos promover a BIODIVERSIDADE!
