Open Schools Journal for Open Science Special Issue

1. Preface to the special issue

We are very happy to announce the publishing of another issue of Open Schools Journal for Open Science.

Teachers and students despite the hard time, they worked hard to deliver seven very interesting scientific articles illustrating the research work conducted in forms of blended education both in primary and secondary education. Impressive and inspiring work demonstrating simplistic and high-quality topics in Physics, unique concepts Chemistry and even a study on COVID-19. This issue hosts articles from Turkey, Portugal and Greece with 5 of them in English and 2 in Greek.

Enjoy a good read!
