

To submit your article to the *Deltion* of the Christian Archaeological Society, **you must first register with the journal as an Author.**

**If you have already registered as Readers**, upgrade your profile by choosing the option **Author**. To do this, follow these steps: click on the field **Login** (<http://ejournals.epublishing.ekt.gr/index.php/deltion/login>)> enter your **Username** and **Password**> **Edit my Profile** > click on the field **Author** (you may retain the field **Reader** as active)> complete the process by clicking on the field **Save**.

**PLEASE NOTE:**

- The **First** and **Last Name** of an author are entered in only one language, as detailed above. The other details are provided **in two languages**. To do this, first fill in your information in the language in which the article is written and click **Submit** (right beside the field **Form Language**) to define the language. Then provide the information in a second language chosen from the dropdown list, click on the **Submit** field and fill in your information, except for the first and last name of the author, which remain as they are in the first-choice language. Please do not save in between the two languages. To complete this process, click on the field **Save**.
- One of the two languages you select **must** be English because this is required by the **Open Journal System (OJS)**. The above process for providing information in another language to the OJS also obtains for the submission of the metadata for articles (see detailed instructions below).
