

CONATUS – ONLINE SUBMISSION GUIDANCE

- * Choose the section of the journal for submission (e.g. book reviews, articles etc.).
- * Choose the main language in which the article is written from the dropdown list.
- * Agree with the submission preparation checklist.
- * Attach your paper.
- * Fill in the article metadata first in the language that the article has been written, including author information for all authors (as described in the user registration guide). The following metadata fields are mandatory:
 - Title.
 - Abstract (obligatory in two languages).
 - Keywords (obligatory in both languages. Separate keywords with semi-colons (;))
 - Language (insert “en” for English, “fr” for French).
 - References (Copy and paste the bibliography of your article in this field in APA or MLA style, irrespective of the style that you use in the attached document. This allows the editors to provide direct links to those articles, if they exist online, to help readers of your article directly export bibliographies in various formats, and help track the usage of these references).

We recommend that you fill as many fields as possible in the ‘indexing’ section beyond the obligatory ones above. Indexing supports even more your article accessibility in a more structured way.

OpenAIRE metadata:

If your submission is the result of EC funding through Horizon 2020, this field is obligatory to fill with the grant agreement number of your research grant. This will allow for your publication to become visible in the European repository www.openaire.eu, which provides open access to all publications funded by the EC.

Supporting Institutions: We recommend that you fill this field if your article is the result of specific funding, for example by an FP7, Horizon 2020 project, by a private Foundation (by filling in e.g. European Commission or Wellcome Trust).

Guidance for the attached document:

- In the attached document must not be included personal information of the author
- Text form: Font Times New Roman 12 (10 for the footnotes), Line space 1.5, Justified alignment
- Heading form: Font Times New Roman 14, Center alignment
- Bibliographical references: Footnotes are required in accordance with the Chicago Manual of Style, Notes and Bibliography
- Abstracts: mandatorily in two languages (Greek-English)

3.1.1 Guidance for Original Articles

- Language: Greek or English
- Length of Text: 3,500 – 5,000 words
- Length of Abstract: 250 – 300 words

3.1.2 Guidance for the Book Presentations

- Language: Greek or English
- Length of Text: 1,000 – 2,000 words
- Length of Abstract: 100 – 200 words
- Subheading: Bibliographical Information of the presented work (Times New Roman 13)

3.1.3 Guidance for Translations

- Every applicant for a Translation must get an approval from the Editorial Board. The text, that is going to be translated, must be sent at first as a proposal to the E-mail below: conatus@ppp.uoa.gr
- In case of translators in the first two circles of their studies, they should search by themselves for a scientific editor for their translation (a Doctor or a Professor).
- Language: Translations must be mandatorily in Greek
- More preferred are widely accepted texts that promote philosophical research, provided always that they have not been already translated in Greek
- Length of Text: 11,000 words
- Bibliographical information of the original text must be mentioned in the subheading
- Translation abstracts must consist only of bibliographical information of the original text
